Office of Legislative Counsel

Monday - 28 December 1959

1. Kenneth Mansfield, Jackson Subcommittee on National Policy Making Machinery, telephoned querying the spelling of certain Chinese names in the unclassified policy making machinery studies. Since they are printing this, they have a deadline of eleven o'clock tomorrow and wanted verification on these spellings.

2. Checked with Mr. Galman on the Staff of the Senate Interstate and Foreign Commerce Committee regarding the proposed travel of Senator George A. Smathers (D., Fla.) and several other senators to Latin America early in January. Mr. Galman had previously indicated an interest in having the group briefed by CIA and State Department representatives. Mr. Galman thought the briefing would have to be deferred until sometime between 11 January and 14 January unless Senator John Butler (R., Md.) plans to leave at an earlier date. Mr. Galman is to call us when he has some specific information on this.
